

Call 1-800-947-0868 or order online at www.ecdcontrols.com

 Industrial AC & DC drives, PLCs and HMIs	 Electrical enclosures, racks, and cabinets	 6-Axis, SCARA & Cartesian Robotic solutions
 Industrial control, relays & contactors, CBs, MCCBs, disconnects & softstarters	 Wire/cable management & identification systems	 Entrelec Terminal blocks and connection devices
 Safety relays, sensors, switches, fencing, mats & light curtains	 Industrial control and automation PLC's, HMI's, Relays & Power Supplies	 Linear motion, guides, bearings, ball spines & screws
 Motor & lighting controls, switchgear	 Linear motors, actuators & servo controllers	 Secure, reliable, remote connections thru IoT
 Industrial Electric motors	 Fuses, fuse blocks, holders, protection relays	 Electrical connectors, terminal blocks, Remote I/O and terminal markers
 Wire/cable management, cable protection, power connection & control	 VFD's, contactors & relays, circuit breakers & manual motor starters	 Ethernet switches & device networking products
 Timer relays and controls, sensors and microprocessors	 Flexible cable, VFD cable solutions & power supplies	<p>ECD is an integrated distributor. We distribute automation, control, motion and mechatronic products for End User and OEM applications.</p> <p>VALUE ADDED SERVICES</p> <ul style="list-style-type: none"> - Application Engineers on Staff - Certified Drives Start-Up - PLC Programming - CAD Drawings & Wiring Diagrams - Custom Control Panels - UL 508A & 698A Panel Shop - Contract Manufacturing - Cord Sets - Drive Assemblies - Custom Rail Assemblies - Custom Pneumatic Assemblies - Kitting & VMI - Engraving - Cable and Wire Cutting - Wire & Terminal Marker Printing - Standard and Custom Enclosures <p>Complete Application Solutions Large On-Site Inventory</p>
 Industrial sensors, encoder solutions & vision systems	 Industrial control and monitoring products	
 Gear motors	 Custom Sign & Label printing & cutting solutions	
 Sensors, Solid State Relays, Power Supplies, Industrial Controls	 Industrial electrical connectors & cord sets	
 Industrial AC drives (VFD) and drive systems	 Transformers and power supplies	
 DC & AC motor speed controls & accessories	 Filters for VFD, harmonics & high frequency applications	
 EMI-RFI & harmonic filters for power quality	 Structural aluminum profiles for machine building & guarding	
 Corrosion resistant enclosures	 Signal & alarm products and warning devices	
 Panel interface connectors, voltage indicators & predic. maintenance sensors	 Thermal management for enclosures and signaling devices	
	 Position switches, safety devices & modules, & signaling devices	

ECD is first and foremost a distributor of electrical control components for OEM's and Machine builders. The something extra is the extensive knowledge of the products we distribute as well as the ability to help with product selection, technical support & application assistance. Value added services include an inhouse UL 508A and UL 698A Listed Panel Shop, Engineering Support, Custom Electrical Control Design & Fabrication, Electrical & Mechanical 2D & 3D drawings in Solid Works, PLC & Drive Programming Services, VFD Startup Services, Remote Equipment Troubleshooting Services, custom pre-assembled T-Slot aluminum profiles, custom rail assemblies, kitting and more. ECD is your source for OEM controls and offers a large inventory of automation and control products in stock and ready to ship.

Contact Information

Electrical Control Distributors

- Automation & Control Products
- Custom Control Panels
- PLC Programming
- VFD Assemblies & Programming
- VMI & Kitting
- Structural Aluminum Profiles
- Custom Robotic Work Cells
- Custom Machine Frames
- Custom Safety Partitions
- Custom Pick & Place Gantries
